

WHAT IS CLAIMED IS:

1. A demountable lampshade, comprising:
a plurality of shade piece, each including a frame body with a receiving
portion formed thereon;
5 a connecting base including a plurality of projecting bars, each projecting
bar having a connecting portion at the end to connect with the receiving portion
of each shade piece; and
a plurality of mounting fixtures for mounting the shade pieces with each
other to form a lampshade structure.
- 10 2. The demountable lampshade of claim 1, wherein the shade piece has
a fanlike shape.
3. The demountable lampshade of claim 1, wherein the shade piece
further includes a shade body embracing the frame body.
4. The demountable lampshade of claim 3, wherein the shade body is
15 made of plastic material.
5. The demountable lampshade of claim 3, wherein the shade body is
outstretched at one side of the frame body to form an overlapping cover on the
other shade piece while two shade pieces are mounted together.
6. The demountable lampshade of claim 3, wherein the shade body
20 forms a plurality of fixing holes, and the mounting fixture has a plurality of
clamping portions engaging with the fixing holes to mount two shade pieces
together.
7. The demountable lampshade of claim 1, wherein a connection of the
receiving portion of the shade piece and the connecting portion of the
25 connecting base is demountable.
8. The demountable lampshade of claim 7, wherein the receiving
portion of the shade piece is a socket portion or a plugging portion.

9. The demountable lampshade of claim 1, wherein the connecting base further includes a base body integratedly formed with the projecting bars.

10. The demountable lampshade of claim 9, wherein the base body is a cylinder or a plate.

5 11. The demountable lampshade of claim 1, wherein the connecting base further includes a base body fixedly furnished with the projecting bars.

12. The demountable lampshade of claim 11, wherein the base body is a cylinder or a plate.
